PROFILE

I am a fresh graduate in Information Systems from Gunadarma University, Faculty of Computer Science and Information Technology (FIKTI). I have a keen interest and experience in front-end development, combining creative design and technical skills to build responsive user interfaces. Proficient in HTML, CSS, JavaScript, React, and currently honing skills in Next.js. Open to job opportunities that enhance my programming skills and contribute to digital innovation. In addition, I have an interest in the security part of websites or applications that are relevant to my internship experience.

EDUCATION | Bachelor of Information Systems, Universitas Gunadarma October 2020 – September 2024

GPA: 3.45/4.00

Relevant Courses: Human-Computer Interaction, Web-Based Programming, Object-Oriented Programming, Algorithms and Programming, Structured Programming Techniques, Computer Security

WORK EXPERIENCE

IT Security System Section | Percetakan Uang Republik Indonesia (Internship) August 2024 – December 2024

- Performed regular server checks and studied Grafana for maintenance.
- Learning Linux for server configuration.
- Assist as Customer Service when there is a problem with E-stamp.
- Make monitoring inactive or active user application as a final project with laravel framework as frontend and springboot with java language as backend.
- Learning java and jruby programming languages and creating simple APIs.

Full-stack Developer Intern | BTPN Syariah (Internship) December 2023 – January 2024

- Design and develop web interfaces using Vue JS.
- Write and manage basic code.
- Learn Java and Golang with basic concepts.
- Perform commit, push, and pull-on Git and GitHub.
- Final Project: Create databases and APIs using Golang.

PROJECT

Toko Online | [Deploy](#) February 2024 – Present

- Built using Next.js and TypeScript, with Firebase as the database.
- Integration with api gateway payment with midtrans

Clone disney | [Deploy](#) | [Github](#) August 2023 – September 2023

- Created with React JS and Vite, utilizing the themoviedb API.

Clone Youtube | [Github](#) May 2023 – July 2023

- Developed with React and connected to the Rapidapi API.

Portfolio Project | [Deploy](#) | [Github](#) May 2023

- First personal website created with React JS, showcasing completed projects.

COURSES AND CERTIFICATIONS | [Sertifikat](#)

- Junior Web Programming | LSP
- Data Analysts | LSP
- Fundamental DBMS (Oracle, SQL Server, Xampp) | LepKom, Gunadarma University
- C# for Beginner (Visual Studio 2012) | LepKom, Gunadarma University
- Basic Web Application Development | LepKom, Gunadarma University
- Basic Web Application Design | LepKom, Gunadarma University
- SQL SERVER FOR INTERMEDIATE | LepKom, Gunadarma University
- C# FOR INTERMEDIATE | LepKom, Gunadarma University
- SQL SERVER FOR BEGINNER | LepKom, Gunadarma University
- Java Programming Language Fundamentals | LepKom, Gunadarma University
- FUNDAMENTAL WEB PROGRAMMING | LepKom, Gunadarma University
- Learn to Build Web Applications with React | Dicoding
- Basic Git with GitHub | Dicoding
- Cloud Practitioner Essentials (AWS) | Dicoding
- Project-Based Internship | BTPN
- Computer Security | Binus

SKILLS

- **Front-end Technologies:** HTML5, CSS3, Framework JavaScript, React, Vue, Laravel
- **Back-end Technologies:** Java, Golang, JavaScript.
- **Soft Skills:** Problem-solving, analytical thinking, collaboration
- **Cybersecurity:** Website vulnerability analysis, application security testing, regular application maintenance
- **Version Control Tools:** Git
- **Debugging Tools:** Chrome Inspector
- **Website Architecture & Aesthetics:** Good understanding of website structure and aesthetics
- **Project Management:** Ability to manage projects
- **Communication Skills:** Strong verbal and written communication skills
